

SNAKE GAME (Ladders)

1. Players position themselves on either side of the first stand & throw their snakes to the opposite stand.
2. The person who scores the highest on each end of throw goes first on the next throw. If each throws a “no score,” the last team to win a score goes first again. If, on the second end, it again results in a “no score,” the last scoring team then loses the right to throw first.
3. Stands are placed 15 feet apart.
4. The first to score exactly 21 points wins.
5. If you go over 21 points, it reverts back to last attained score and you must try again.
6. Scoring:
 - Top Bars = 1 Point
 - Middle Bars = 2 Points
 - Lower Bars = 3 Points
7. The snake must hang from a bar to score.
8. If the snake hangs from a horizontal post and crosses over and stays on the outside of the vertical post (but does not touch the ground) the score is 5 Points.
9. If your opponent lands on the same bar, it cancels the point(s).
10. Snakes ARE allowed to bounce off the ground up onto the bar.
