

**YOU WANT FRESH SALMON FOR THE RIGHT PRICE?**

**WE'VE GOT SALMON!!!**

**\$10/lb.—whole fish only**

**Captains Dave Cyr and John Francisco are fishing in a state-of-the-art commercial fiberglass fishing vessel, *The Lorimar*. Our salmon is the finest that money can buy—The King (aka Chinook) Salmon, harvested off the California coast.**

**Because restaurants are not open as normal so far this season, we are changing our business model to sell almost exclusively to you, the ultimate customer.**

**The salmon is bled, gutted, and gilled just after being caught and then chilled in RSW (refrigerated salt water) that keeps the fish colder and in much better condition than just being on ice. We will sell it as whole fish only.**

**(If you need a lesson on how to filet the fish, we will be happy to teach you.)**

**To get on John Francisco's call list, please text him at 925-586-0569. Please include your name, your textable phone number, and your home address.**

**Your information will not be shared with anyone.**

**He will then contact you when he is going out to determine if you're interested in purchasing a fish when he returns with fresh Salmon onboard.**

**The 2020 Salmon season is mid-June through September.**
